Vigan, Ilocos Sur

July 12, 2023

July 14, 2021

Experience

Self Employed

Caoayan, Ilocos Sur

Freelance Tutor

October 2020 – June 2022

- Provided one-on-one tutoring in all elementary subjects to two students (Kinder-Grade 2)
- Taught foundational reading and writing skills using government-issued modular learning materials
- Guided students through self-learning modules during remote education in the COVID-19 pandemic
- Assisted with daily homework, assessments, and completion of performance tasks (e.g., video outputs, written activities)
- Reinforced lessons through simplified explanations and structured practice exercises
- Monitored academic progress across grading periods, supporting consistent performance (grades ranging from 85–92)
- Adapted teaching methods to match individual learning pace and comprehension levels
- Coordinated with parents to track progress and ensure timely submission of school requirements

Leadership & Activities

Computer Science Society

Vigan City, Ilocos Sur

Auditor

August 2024 – May 2025

- Audited and monitored organizational expenses using financial statements to ensure accuracy and accountability
- Reviewed budgets and tracked fund allocations for various events and projects
- Assisted in preparing financial reports and documentation for transparency and record-keeping
- Contributed to the planning and execution of organization projects and events
- Collaborated with team members to ensure smooth implementation of projects and timely completion of tasks

iTech

Vigan City, Ilocos Sur

Opinion Writer

September 2023 – June 2024

- Wrote opinion pieces on topics such as social media usage and its impact on students
- Applied critical thinking in analyzing current issues and forming viewpoints
- Collaborated with peers and editors to refine ideas and improve writing quality

Skills

- Programming Languages: Java, Python, C, SQL, JavaScript (basic)
- Web Development: HTML, CSS
- Data Analysis: Pandas, NumPy, Matplotlib
- Tools & Technologies: Firebase, Supabase
- Other Skills: Problem-solving, Analytical thinking, Time management

Projects

MediTrack (Medication Reminder & Inventory App)

- Developed a mobile application for medication reminders and inventory tracking
- Implemented barcode scanning feature for efficient data input
- Integrated Firebase for user authentication and real-time database management

WorkMyself (Personal Fitness Tracker App)

- Designed an application for tracking daily exercise and personal fitness progress
- Included features such as daily quotes, journaling, and timer functionality
- Focused on user engagement and habit-building through structured tracking

Dolt (To-Do List Website)

- Built a task management website using HTML, CSS, and JavaScript
- Integrated Supabase for backend database and user data handling
- Designed a responsive and user-friendly interface for task organization
